

This Circulation Map was developed to identify the existing multi-modal transportation routes/networks in order to realize opportunities/potential linkages/connections, as well as breaks in linkages/connections.

This information was collected from a range of sources, including:

- Rhode Island Public Transit Authority (RIPTA)
- Rhode Island Department of Transportation
- Rhode Island Geographic Information System (RIGIS)
- North Kingstown Town Data

# Healthy Places by Design, North Kingstown, Rhode Island

Town of North Kingstown and West Bay Family YMCA

## Circulation Map Town-wide Assessment

- |                  |                        |                               |
|------------------|------------------------|-------------------------------|
| <b>Road Type</b> | RIPTA Route            | Suitable for biking           |
| Highway          | <b>RIPTA bus stops</b> | Most suitable road for biking |
| Arterial         | Shelter                | <b>Bikepath Status (2010)</b> |
| Collector        | No Shelter             | Completed                     |
| Other            |                        | Study and development         |
| <b>Railroad</b>  |                        | Under study                   |
| Active           |                        |                               |
| Inactive         |                        |                               |
