FEBRUARY 22, 2012
ADDENDUM ONE

OUTBOARD MOTOR SPECIFICATIONS, CLARIFICATIONS

1. Under section D Warranty, item 2 “Vendor shall be responsible for all repairs to include parts and labor during the usual warranty period”.

This refers to the warranty for repairs only.

2. The bid requires that both engines be counter rotating.

The term counter rotating implies that the motors are counter rotating to each other. The drive system on one motor is to turn clockwise, while the drive system on the other is to turn counter clockwise.

3. The bid specifies V6 engines. The Mercury engines are an in- line 6 cyl configuration, this requirement would exclude the Mercury engines.

Vendor can submit a detailed exception to the bid specifications.

4. Aluminum propellers are specified.

Operational parameters of this vessel require aluminum props be installed.

5. The bid specifies a Teleflex hydraulic steering system. This would exclude Mercury engines.

Vendor can submit a detailed exception to the bid specifications
